About Nautical Supplies

Nautical Supplies (AMI Maritime Pty Ltd Trading as Nautical Supplies) is a long established specialist supplier for Northern Australia's commercial, industrial and private marine sectors. Our premises are located on the waterfront close to Darwin's CBD, and Portsmith Cairns, QLD.

We provide a broad range of goods and services, including marine safety equipment and electro-mechanical servicing, and have accumulated a wealth of knowledge and skills in supplying and servicing of this equipment.

In addition, at our Darwin location we have a sail loft and a rigging and splicing department.

We source leading international marine brands, and have freight services in place which enable us to provide fast and efficient deliveries across the whole of Australia and South East Asia. Nautical Supplies are a member of the AMI Group.

Follow us for new products and latest news

Marine Safety

We have a special interest in the supply and service of marine safety equipment including life rafts, inflatable life jackets, flotation and buoyancy devices, water activated lights, EPIRBs, flares, etc. This interest is fully supported by qualified staff and accredited premises.

Marine Electronics

Nautical Supplies supply, service and install a range of marine electronics for leisure, commercial and defence application including; radio systems, satcom, navigation equipment, IMCOS, and gas and fire detection systems.

Sailing and Specialty Services

In addition to our liferaft service facility we have a sail loft and workshop where we design, make and repair sails and related items. Our rigging workshop provides swaging and splicing services.

SOS MARINE RANGE AVAILABLE

S.O.S MARINE

EPIRBS

Should the unexpected happen, this EPIRB will relay your location to a vast network of search and rescue satellites, allowing local first responders to get you home more easily. Ensure your DCV meets float free EPIRB legislative compliance as of January 2021..

ACR ARTEX

ACR EPIRBS

Designed with high-efficiency electronics that are built for performance, the GlobalFix™ V4 GP Emergency Position-Indicating Radio Beacon or EPIRB provides the protection you can trust in an emergency

NS CODE	DESCRIPTION
A10722	EPIRB FLOAT FREE ACR GLOBAL FIX V4CAT1
A10773	EPIRB ACR 406 GLOBALFIX PRO CAT 2

Available with and without float free automatic release bracket

GME

GME EPIRBS

The MT600G features a 66 channel GPS receiver with top mounted Quad helix antenna, which means locating the beacon is faster and more accurate.

NS CODE	DESCRIPTION
A10720	EPIRB FLOAT FREE GME MT603FGAUS CAT 1
A10774	EPIRB GME MT600G (manual) GPS 10YR BATTERY

(Left) Float free model, Designed, engineered and manufactured in Australia

OCEAN SIGNAL

Ocean Signal EPIRBS

This Electronic Position Indicating Radio Beacon (EPIRB) will help make sure you're located and rescued if things go wrong.

NS CODE	DESCRIPTION
A10791	EPIRB FLOAT FREE OCEAN SIGNAL CAT1 PRO
A10790	EPIRB 406 RESCUEME 66CH GPS 10YR BATTERY

For emergency situations where a user is not physically able to reach the EPIRB in time, The EPIRB1 Pro also comes complete with a Category I Automatic Release Housing.

(left) Float free Model

JOTRON

Jotron EPIRBS

Jotron's high quality products conform to current international regulations according to IMO and SOLAS and meet any mandatory demands of the commercial, marine, fishing, offshore and leisure vessels.

NS CODE	DESCRIPTION
A10730	EPIRB FLOAT FREE JOTRON 60S GPS
Z65504	EPIRB JOTRON GPS MANUAL 60S

Tron 60S with float-free bracket has a small and compact handheld size. Tron 60S is totally sealed, has 5 years warranty and is designed to meet IMO SOLAS requirements.

Manual   Float free

Personal Location Beacons (PLB)

Should the unexpected happen, this EPIRB will relay your location to a vast network of search and rescue satellites, allowing local first responders to get you home more easily. Ensure your DCV meets float free EPIRB legislative compliance as of January 2021..

ACR ARTEX

ACR PLB

Small but resilient, the ResQLink 400 has been professionally engineered and tested to ensure it can withstand even the harshest elements.

NS CODE	DESCRIPTION
A10771	PLB RESQLINK PLB-400 GPS ACR

With three levels of integrated signal technology – GPS positioning, a powerful 406 MHz signal, and 121.5 MHz homing capability – the ResQLink 400 quickly and accurately relays your position to a worldwide network of search and rescue satellites

OCEAN SIGNAL

Ocean Signal PLB

The rescueMe PLB1 can be operated with a single hand in even the most challenging situations. A simple spring loaded flap covers the activation button preventing inadvertent use.

NS CODE	DESCRIPTION
Z65130	PLB RESCUEME OCEAN SIGNAL
A10779	PERSONAL LOCATOR RESCUE ME MOB1 AIS OCEAN SIGNAL

RescueME PLB1 works with the only officially recognised worldwide dedicated search and rescue satellite network (operated by Cospas Sarsat). As this is funded by governments there are NO CHARGES to use this service.

HAMMAR

HAMMAR®
HAMMAR HYDROSTATIC TECHNOLOGY

| NS CODE	DESCRIPTION
A11215	HYDROSTATIC RELEASE HAMMAR H20
Z62728	HYDROSTATIC RELEASE TO SUIT OCEAN SIGNAL CAT1 PRI
A10825	HYDROSTATIC RELEASE TO SUIT ACR GLOBAL FIX V4CAT1
A11222	HYDROSTATIC RELEASE TO SUIT JOTRON 60S FLOAT FREE
Z65585	HYDROSTATIC RELEASE TO SUIT GME MT603FGAUS CAT 1

Hydrostatic Release Units

The Hydrostatic Release Unit (HRU) is designed and approved to automatically deploy a life raft or EPIRB in the event of a vessel sinking.

HRUs operate between 1.5 and 4 metres of water depth, to release the securing mechanism for the life raft or EPIRB
SART

SART or Search and Rescue Transponder is extremely vital equipment on the ship as it performs the job of a signal-man.
It is a vital machine during distress for it helps in locating the position of the vessel in case it goes off-track. SARTs are made of waterproof components which protects them against damage by water.

JOTRON

SART

Tron AIS-SART GMDSS search and rescue transmitter is "Wheel Marked" in accordance with European Council Directive 96/98/EC with latest Commission Directive 2011/75/EU (7th amendment).

NS CODE	DESCRIPTION
A10850	SART TRON 20 W/ BRACKET JOTRON RESCUE ACR 2914

MARCO S.P.A

Hand held Air Horns

Gas horn with snap connection. Complete with monobloc aluminium cylinder. Ecological flammable gas 200 ml

NS CODE	DESCRIPTION
A11675	AIRHORN HAND HELD NON-FLAMMABLE

ACR ARTEX

SART

This SART complies with IMO SOLAS regulations, and has a superior lithium battery that provides over 96 hours of operating life in standby mode, and 12 hours of active operating life

NS CODE	DESCRIPTION
A10830	SART PATHFINDER SEARCH AND RESCUE ACR 2914

RWB MARINE

Hand held Air Horns

Ecoblast is a rechargeable air horn - just pump in new air with a bicycle hand pump, a compressor, or at your local service station.

NS CODE	DESCRIPTION
A11670	AIRHORN ECOBLAST WITH PUMP

Life rafts in Australia are typically classified by how they are used:

Cruising Life rafts
Designed with leisure marine in mind, for boating and fishing in calm waters close to shore, these rafts are intended to be deployed for less than 24 hours – until help arrives.

Coastal/Offshore Life rafts
Intended for use further from the coast, and typically feature a protective canopy and dual buoyancy tubes for greater performance in rough seas.

SOLAS Approved Life rafts
Toughened for commercial vessels and defence application, and feature a large inventory of survival equipment and rations in event of extended exposure while awaiting rescue.
FUJIKURA

SOLAS Approved Commercial Life Raft

Using their state-of-the-art technologies cultivated by long experience in commercial maritime, Fujikura is engaged in production of inflatable life rafts, evacuation chutes, life jackets and lifeboats. Available in various packing options.

NS CODE	DESCRIPTION
W40006	LIFE RAFT SOLAS 6P FUJIKURA
W40010	LIFE RAFT SOLAS 10P FUJIKURA
W40015	LIFE RAFT SOLAS 15P FUJIKURA
W40020	LIFE RAFT SOLAS 20P FUJIKURA
W40125	LIFE RAFT SOLAS 25P FUJIKURA

PLASTIMO

happy boating to you!

Plastimo Transocean

Designed for navigation in extreme conditions the Transocean includes a large capacity and quantity of ballast pockets, large area drogue anchors, -15°C inflation temperature (group A), double insulating floor, bright orange canopy with automatically erecting arch tube, 4.3 cd. outside light and retro reflecting stripes.

The Transocean ISO 9650-1 also features a ballasted reversible ladder and grab handle to ease embarking.

NS CODE	DESCRIPTION

SWIFT TENDERS

Tenders 2.4m - 3.1m

Swift Tenders have a solid and sophisticated feel with their aluminium hull, wide beam and large diameter tubes. Stylish yet practical, they are light, stable, fun to use and are purpose built to travel safely from ship to shore fully loaded.

The standard hull is produced from the finest powder coated marine grade aluminium and has a flat floor with welded-in cast lifting & towing lugs. The tube fabric is coated with "ORCA" Hypalon, a synthetic rubber which is resistant to everything from sunlight and abrasion to petrol and even acetone solvent.

Length	Beam	Tube	Chambers	HP	Persons	Load	Weight
LOA	Overall	Diam.	No.	Max	Max	Kgs	Kgs
2.4	1.44	360	3	5	3	340	37
2.6	1.55	400	3	8	4	430	42
2.9	1.55	400	3	10	5	500	45
3.1	1.55	400	3	15	6	550	49

NARWHAL SOLAS RESCUE VESSELS

Tenders 2.4m - 3.1m

As their main mission, these vessels have been designed for the recovery of crew members who fall into the sea, based on their ease of maneuvering and their rapid set-up. It is equally useful for an eventual abandonment or displacement of the ship and is also used to group, tow and organize life rafts.

The unsinkable rescue vessels NARWHAL SV-420 and SV-480 comply with S.O.L.A.S. regulations, as well as Directive 96/98 / EC, as amended by Directive 2002/75 / EC, on marine equipment (MED), with the CERTIFICATE OF APPROVAL MED-B-000004W for SV-420 and MED-B-000004X for SV-480.

Specifications	SV-420	SV-480
Total Length	420 cm	480 cm
Inner Length	306 cm	354 cm

SIMRAD

SIMRAD

Marine Radar Systems

Proefessional, feature packed navigation equipment. State-of-the-art award winning radar technology, offering reduced weight and compact dimensions, thereby providing the best solution for installation even on small high speed craft.

Multi Function Displays

Simrad multifunction displays combine powerful fish-finding sonar technology with the chartplotter navigation features you need to plan trips and find your way on the water. SIMRAD fishfinders offer dedicated sonar displays, perfect for amateur anglers and offshore sportfishing pros.

Advanced Sonar Imaging - Transducers

Complete your ultimate fish-finding system, by getting an entirely new view under the water with SIMRAD's range of imaging transducers. With higher resolution transducers see near picture like views under the water. Don't think it is a fish, know it.

See structure and cover with a new level of refined detail and at a range unmatched by any other structure imaging technology with Active Imaging™ sonar.
RAYMARINE

Raymarine®

Marine Radar Systems

Raymarine offers a wide range of marine radar systems for all types and sizes of boats.

Day and night, radar systems from Raymarine keep you aware of surrounding traffic, hazards and obstacles, approaching weather and so much more. Use your boat's radar to navigate in dense fog or rain, or confirm your boat's position with super-accurate radar ranges.

Let MARPA and other innovative detection technologies help you navigate safely through a crowded harbor and enjoy map-like coastal detail when cruising offshore. Need a radar for fishing? Find sea birds at long range with Raymarine's state of the art detection algorithms to lead you to the fish.

Clearpulse chirp fishfinders and sonar modules

Whether your passion is freshwater, inshore or offshore coastal fishing, our DownVision™, SideVision™ and new RealVision™3D fishfinder sonar modules allow you to image structure and find fish simultaneously - all with exceptional clarity.

With fish finders engineered for hobbyists and serious anglers alike, our range of sonar modules let you spend more time catching fish and less time looking for them.

Autopilots

Raymarine autopilots feature vibrant colour displays and are powered by Raymarine's intuitive LightHouse user interface.

Raymarine has a broad range of drive units to match almost any type of steering system.

No fuss, easy to install and robust - the Evolution autopilot control combines Raymarine's autopilot expertise, FLIR Systems' R&D, and advanced aerospace guidance technology to create Evolution Ai control algorithms that deliver a new level of accurate autopilot control.

JRC

JRC

Echo Sounders & Fish Finders

High accuracy and fast data processing, ideal for commercial fleets. Various models available.
Professional radar systems featuring accurate, superior target clarity.

NKE-1066

NKE-2044

TMQ

TMQ
Trusted Marine Quality
Commercial Autopilots

Designed and manufactured in Australia for professional mariners, established in Brisbane 1976.

(From top left) AP47C colour autopilot, AP9 designed for high speed vessels and ships, AP4 TMQ's commercial workhorse for professional vessels.

C-PLOT

CPLOT is a flexible software solution designed for professional and recreational mariners. The CPLOT overlay displays navigational data, historical track, user data such as marks and routes, as well as vessel data such as range and bearing.

COBHAM

COBHAM

Sailor Fleet One

Attractively priced reliable internet and global voice calling via SAILOR's compact antenna.

Ideal for smaller vessels

- Compact 30cm antenna
- Easy installation
- Data connectivity up to 100kbps and voice calling on a single line.
- Reliable Cobham network

Easy to install

You don't need any specialist skills to install or run Fleet One. Simply plug in, set sail and get online, with easy-to-install and set up hardware.
Lars Thrane LT-3100
Satellite Communications System

LARS Thrane

Designed and built for the demanding and rough environment at sea.

- Voice, SMS, Data, and Vessel tracking
- 2.4 kbps and 9.6 kbps compressed data
- Programmable softkeys for e.g. Emergency Service
- Single antenna cable solution (up to 500 m)
- High-performance GNSS/GPS receiver
- High quality microphone, speaker, and equalizer for improved audio performance
- Bluetooth interface supporting voice, SMS, and data
- Voice prompt audio feedback
- Large 4.3" TFT display supporting day and night modes
- Firewall and user authentication for high level of security
- Webserver for configuration and maintenance
- Support external LAN Wi-Fi Access Points
- Support external SIP PABX and SIP handsets
- Connectivity of Smartphones, Softphones, and Apps

iridium connected

ICOM

ICOM

Maritime Radio

A marine radio is one of the most important safety tools on board any vessel. Icom's range of VHF and HF marine transceivers offer innovations such as buoyancy, submersible construction, tough military design and AIS receive capabilities

Handheld VHF Radio

ROCNA

Original Rocna Anchors

Of all anchor types, a concave fluke gives the greatest resistance, and through clever design, Rocna provides the largest fluke area possible. In very soft seabeds, this provides the holding power to secure your boat. On hard or weedy sea floors, Rocna's chisel tip ensures that it cuts through and bites deep.

NS CODE	DESCRIPTION

FUEL DOCTOR

optimum combustion
minimum pollution

fuel doctor®

Cleaning and Preventative Maintenance for marine fuels

Fuel Doctor is a highly effective product at cleaning and protecting fuel from contamination as a result of airborne soil spores. Spores develop into organisms which feed on petrols and diesel, manifesting into slimy, sticky material that can plug and damage engines.

Fuel Doctor's state of the art formulation cleans gums and converts free water and microbial growths into microscopic particles. These particles are dispersed evenly throughout the fuel and harmlessly processed through combustion to exhaust.

NS CODE	DESCRIPTION
E43700	FUEL DOCTOR 250ML
E43702	FUEL DOCTOR 1.0L

Teak Care products also available

DURALAC

Duralac

Jointing Compound

Use in marine/industrial applications wherever two metal surfaces are joined – even where components of the same metal are in contact and where metals contact wood, rubber or synthetic materials.

NS CODE	DESCRIPTION
J30275	DURALAC 115ML

Ideal for between masts and spars, aluminium alloy plates, extrusions and bolts or rivets, for marine application where corrosion is accelerated by brine concentration.

CHEMTECH

Is your life raft overdue for a service?

PLASTIMO · Fujikura · DUARRY · S.O.S MARINE

Safety equipment can only protect you and your crew if it is in working order.

Depending on brand and pack type, life raft service intervals can be 12, 24 or 36 months. Following the recommended service timetable from your raft's manufacturer ensures your warranty stays valid, and that your raft will function as expected in an emergency.

Book a service at your nearest Nautical branch

Our friendly Service Department can also service Life Jackets and Dan Buoys from many major brands:

marlin · LADE OÜ · MARINE POOL SPIRIT OF THE OCEAN · LALIZAS Simply life saving · PLASTIMO · BURKE · AXIS PFDS
