

EPIRBs, PLB and SART

Category 1 Float Free EPIRBs for Domestic Commercial Vessels

From 1 January 2021, certain Domestic Commercial Vessels (DCV) must have a float free (Category 1) EPIRB installed. Category 1 Float free brackets will only house water activated EPIRBs. A Float Free EPIRB is a combination of a water activated EPIRB unit, hydrostatic release unit (HRU) and a float free bracket. Check the AMSA website to see if these legislative changes apply to your vessel.
