

LIGHTHOUSE CHARTS

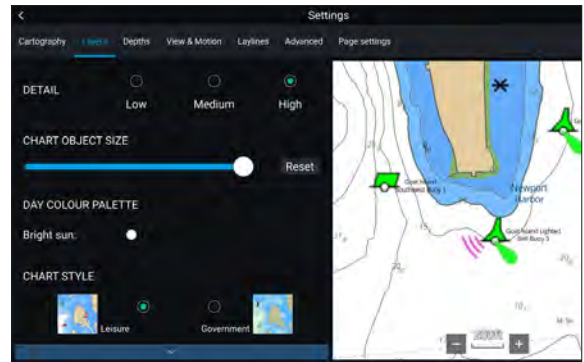

LightHouse Charts bring a new level of clarity to marine navigation. Created from official hydrographic chart sources, LightHouse Charts offer maximum readability, intuitive navigation, and superior quality. Four distinct colour palettes provide the best possible viewing conditions around the clock and chart symbol controls give you the power to customise the charts to your personal preference. Subscribe to LightHouse Charts Premium to access continuous chart updates, an expanded points of interest (POI) library, and enhanced satellite imagery for a powerful, sophisticated take on marine navigation.

PROFESSIONAL OR LEISURE CHART STYLE

Toggle between the information-rich professional S-52 government chart style (left) and the LightHouse leisure chart style (right) for your preferred view of key cartographic data.

ENHANCED CHART SYMBOL CONTROL

Change the size of channel markers, points of interest, and other icons for complete control over chart details.

Nautical Supplies are an Authorised Service Dealer for Raymarine

LIGHTHOUSE 4

The easy-to-use operating system inside every Raymarine chartplotter display, LightHouse™ puts you in command with a fluid touchscreen or HybridTouch™ user experience. LightHouse lets you navigate with the best charts and makes navigating as simple as using a smartphone.

You Are In Command

LightHouse 4 is fast, fluid, and easy to learn. The uncluttered interface is easily personalised for your style of navigating. Get underway with smartphone-like touchscreen experience or take command with HybridTouch keypad and touchscreen control combined.

Simplified Networking

Axiom+, Axiom 2 Pro and Axiom 2 XL all run the LightHouse 4 operating system, allowing you to create navigation systems with any Axiom display combination. Connect up to 10 Axiom displays.

Expandable

Expand any LightHouse 4 OS based display with powerful sensors, including Quantum radar, CHIRP sonar modules, and FLIR thermal night vision cameras. SeaTalk^{NG} and NMEA 2000 connectivity enable engines displays, instruments, and Evolution autopilot integration. Standard Wi-Fi and Bluetooth allows connection to Raymarine apps, accessories and more.

LIGHTHOUSE 4

The LightHouse 4 operating system powers Axiom+, Axiom 2 Pro and Axiom 2 XL chartplotters displays. Previous generation Raymarine eS Series and gS Series can upgrade to LightHouse 3.11 for free. Some advanced LightHouse 4 features like ClearCruise AR, Axiom UAV, and LightHouse Apps are exclusive to Axiom multifunction displays. Visit raymarine.com/lighthouse to learn more and stay abreast of the latest LightHouse 4 feature updates.

Advanced Engine Integration

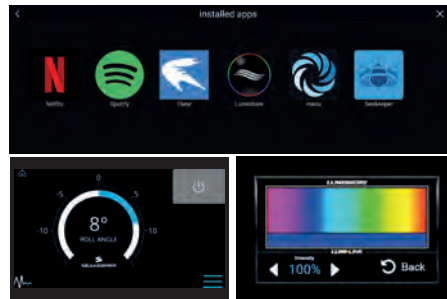

The LightHouse operating system is your gateway to engine integration. Create custom dashboards using NMEA2000 or enjoy advanced integration with Mercury VesselView and Yamaha Command Links outboard engines.

Personalisation

The LightHouse 4 home screen offers bold and simple app icons. Customise the home screen with your favourite apps. LightHouse 4 User Profiles saves yours and other crew member's personal home screens and configuration preferences.

Modern Vessel Automation

The LightHouse OS puts you in total command of the vessel's electrical systems with support for CZone, Empirbus, and Raymarine YachtSense digital control systems. Experience simple touch screen control of lighting, pumps, HVAC systems and more from anywhere onboard.

Performance Sailing Tools

Stay ahead of the competition with Lighthouse 4's performance sailing tools including Dynamic Layline overlays, which can be optimized with your vessel's polar performance targets. The LightHouse Dashboard app offers Race Data and Sailing specific graphical displays in a big, bold, and simple to understand format. A slide-out Race Start Sidebar gives you quick access to critical race stats.

LightHouse Apps

LightHouse Apps is Axiom's expanding library of marine and entertainment apps. Enjoy entertainment apps like Netflix and Spotify or network with onboard systems like Lumishore, Victron, and Seakeeper. LightHouse Apps also keep you connected and informed with support for Mazu satellite, Predict Wind, and Their weather.

LightHouse OS Updates

Visit raymarine.com to learn about the latest LightHouse 4 new features and upgrades.
