FISHING

From compact VHF Radios to the ultimate all-in-one communications solution - we have a VHF Radio for every boater! You'll always be heard loud and clear with a VHF Radio from Raymarine. Whether it's our new compact Ray53, full-sized Ray63, or multifunction Ray73, you can depend on your Raymarine VHF Radio for years of trouble-free communication at sea.

RAY53

Raymarine's Ray53 radio is small in size but big on features and performance. Ray53 is a full-function VHF marine radio with Class D Digital Selective Calling (DSC) and a built-in GPS receiver.

RAY63

The Ray63 offers reliable VHF performance, multi-station control, and intercom capability using optional RayMic wireless and wired controllers. The Ray63 has a built-in GPS receiver and features Class D Digital Selective Calling (DSC).

RAY73

The Ray73 has all of the features, performance, and remote options as the full-sized Ray63 plus an integrated AIS receiver. NMEA0183 and NMEA2000 ports allow the Ray73 to network with chartplotters for AIS and DSC functions.

RAY90

Raymarine's fixed mount Ray90 modular VHF radio bring multi-station communications to a whole new level of power, performance and flexibility. The Ray90 is a black-box design with a transceiver that hides out of sight under your helm, in a locker, or just about anywhere.

RAY91

In addition to being a full featured VHF radio system, the Ray91 also has a built-in Automatic Identification System (AIS) receiver. Ray91 can receive the navigation and safety broadcasts from nearby AIS-equipped vessels and share them with your compatible MFD, chartplotter, radar and instruments.
